

WHAT IS WASTE?

Source: NASA

Land - waste!

Ocean - waste

Clothes - waste

A close-up photograph of a large pile of food waste. Visible items include banana peels with brown spots, green lettuce leaves, a halved tomato, a whole red onion, a purple onion, a yellow bell pepper, a green bell pepper, a slice of cucumber, and various other vegetable scraps. The text is overlaid in the center of the image.

**Food waste alone
causes 10% of
greenhouse gases**

Electrical - waste

Nuclear - waste

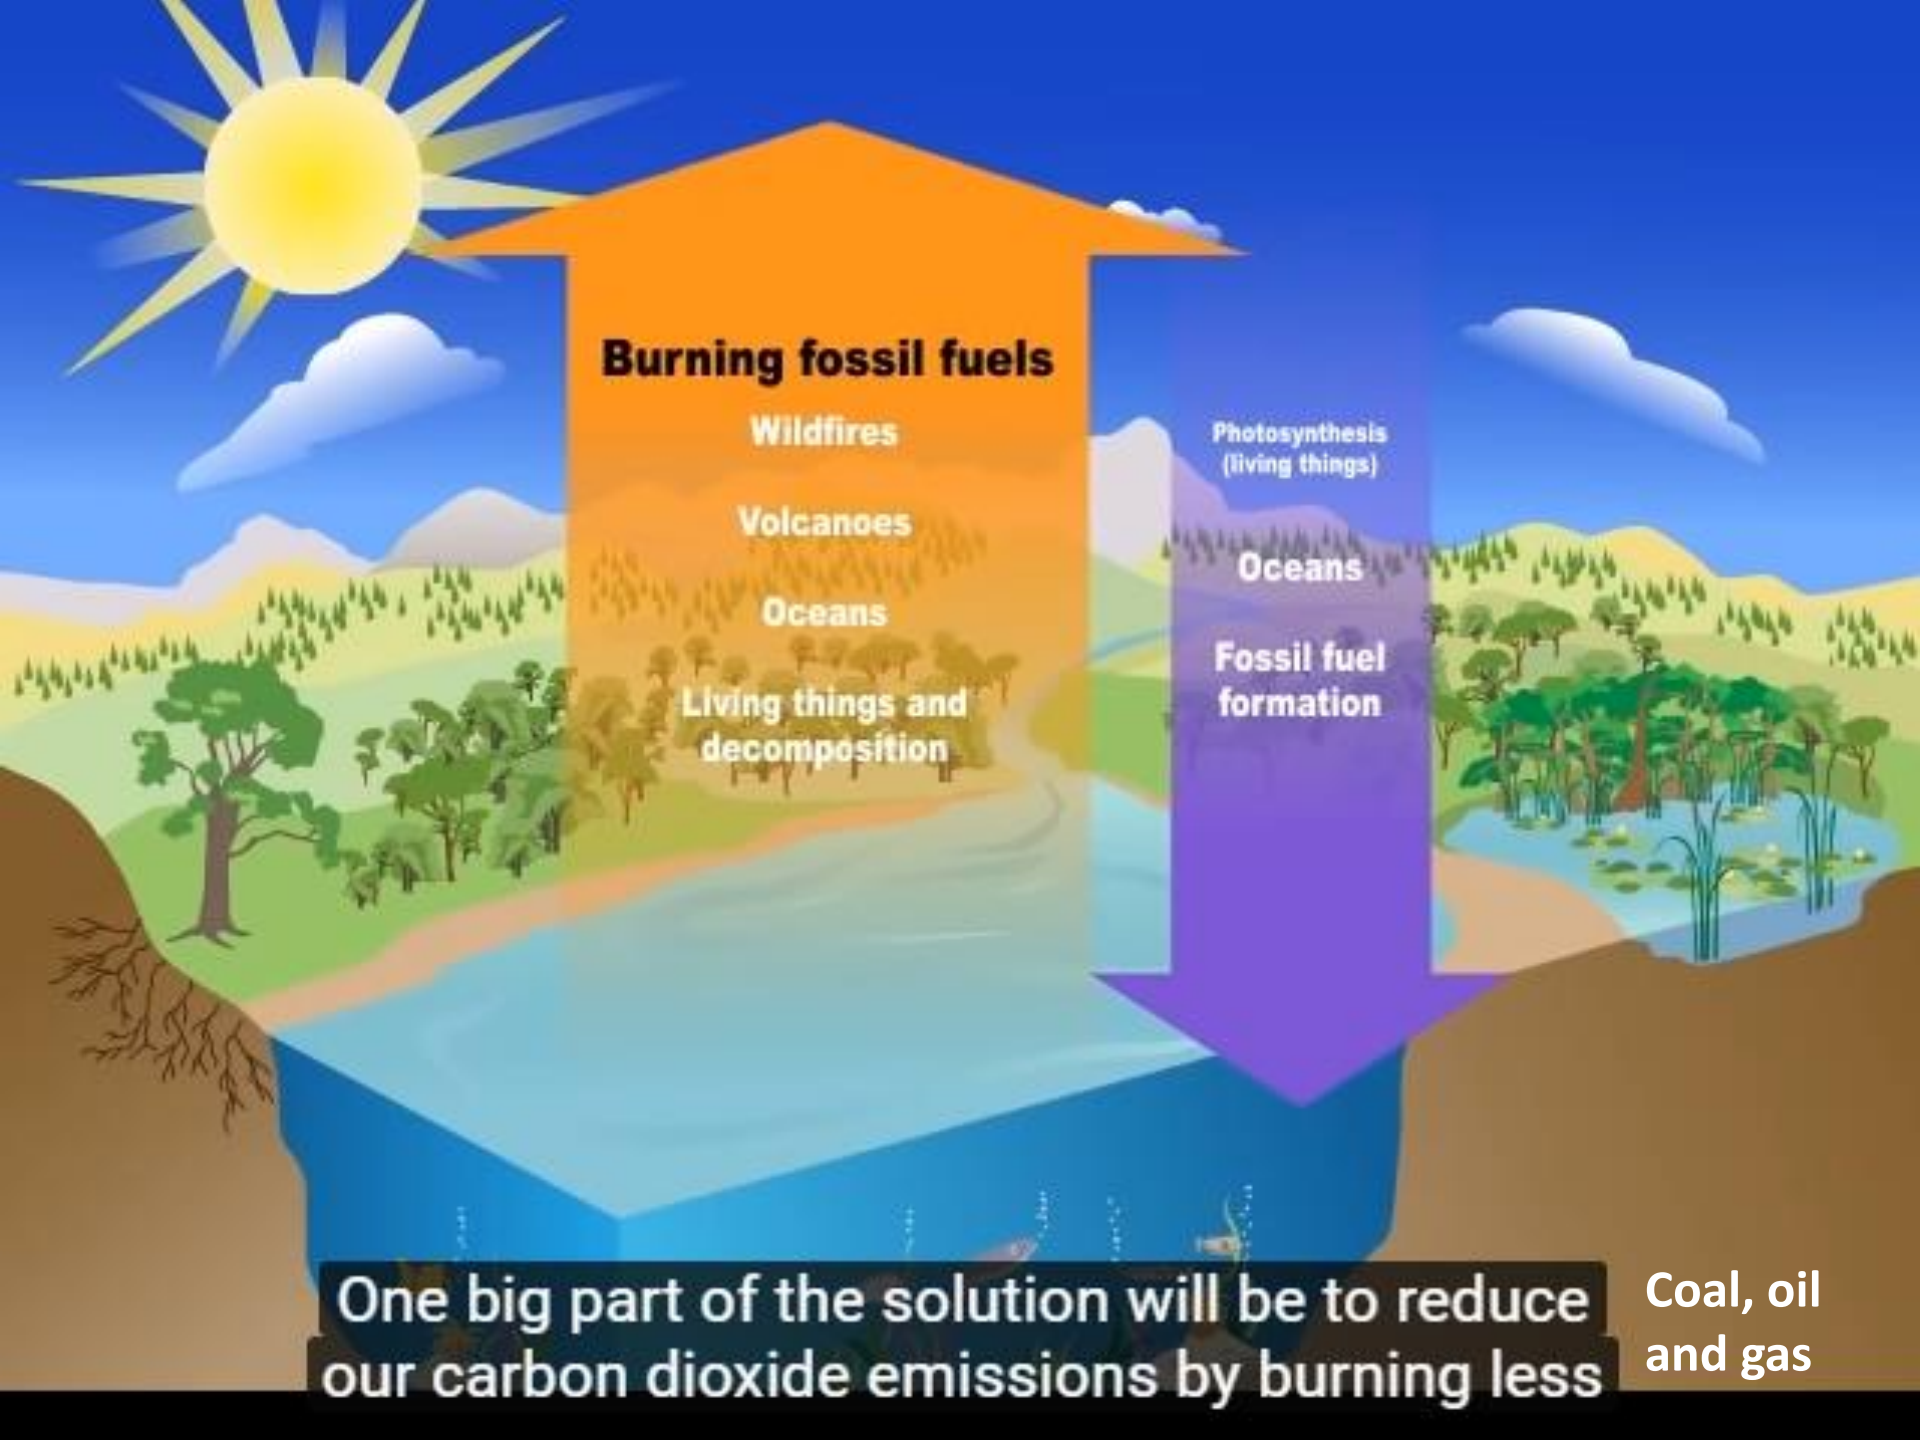

Space - waste

Waste and nuclear waste into space??????????

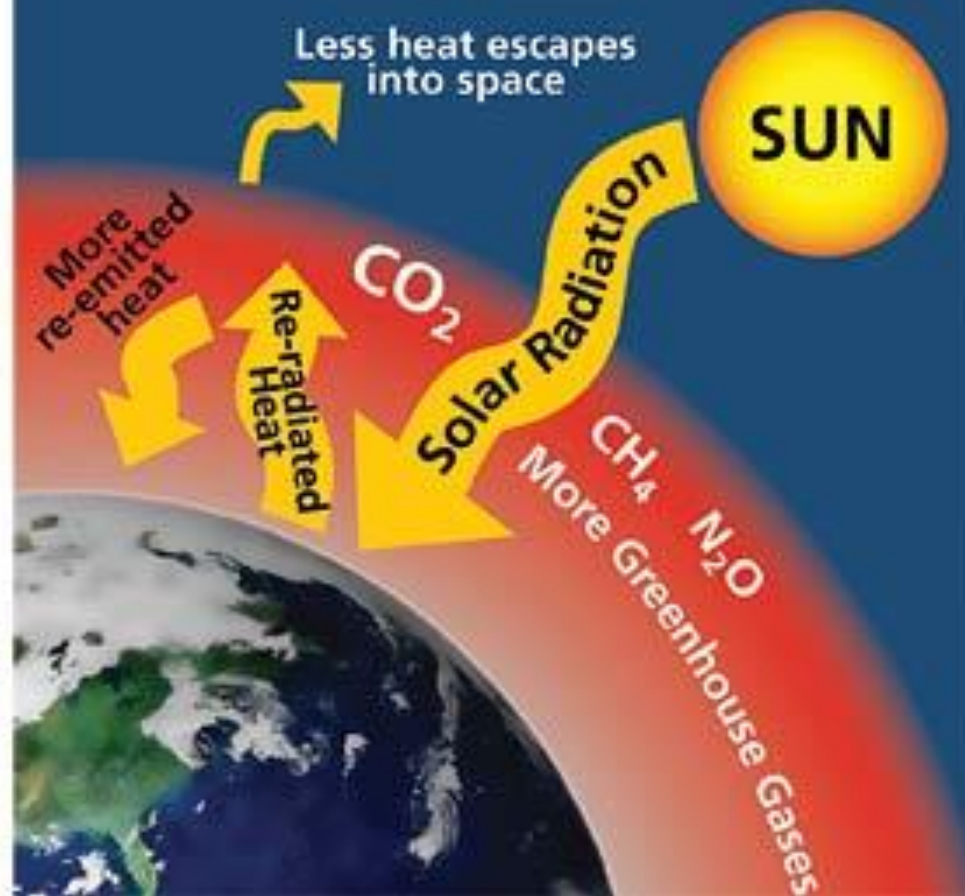

One big part of the solution will be to reduce our carbon dioxide emissions by burning less

Coal, oil and gas

Natural Greenhouse Effect

Human Enhanced Greenhouse Effect

Greenhouse gases - waste
